DATA ANALYST, BI, DATABASE ADMINISTRATION, AND SOFTWARE DEVELOPMENT

Extensive experience in **designing** and **optimizing** SSIS/ETL architectures, **Analyzing** large **Data sets**, **SQL SERVER 05-22 (T-SQL)**, **ORACLE 10g and 11g (PLSQL)**, **MYSQL Database**, **SSIS/ETL**, **Business Intelligence (BI)**, **Visualization using SSRS Report**, **Power BI**, **Micro Strategy**, **SAS**, **COGNOS**. I have great knowledge of documentation using Microsoft DevOps and other, and have experience in version management using TFS, and Software development and design using **asp.net (C#, VB)**, **HTML**, **CSS**, **JSON**, and **API**. Currently studying **Artificial Intelligence (AI) and Machine Learning from University of Texas using Python (sklearn, Scikit-learn, NumPy, pandas, anaconda)**. I have undergone extensive training in Computer Forensics, investigating hard drives, PDAs, cell phones, networks, and hacking activities. I am knowledgeable of a vast array of IT software/programs and proficient at creating, managing, implementing, analyzing, backing-up and recovering MS SQL server 05-22, oracle 10g, 11g and MS Access database. I am also knowledgeable in data modeling and design and have profound understanding of relational database and management systems. Beyond my technical expertise, have a uniquely well-rounded skill set and diverse educational background. Have a Master's degree in Business Administration focused in Technology Management, and have a Bachelor's degree in information technology focused in Computer Forensics. Excellent analytical and problem-solving abilities, diligent attention to detail, and great written and oral communication skills.

Additional core competencies include:

- ✓ Database Development & Management
- ✓ Backup and Restore both SQL Database and Oracle
- ✓ Computer Forensics certified
- ✓ Triggers and functions
- ✓ Programming in asp.net C#, VB, HTML, CSS, T-SQL
- ✓ Experience in Oracle 10g and 11g platforms
- ✓ Experience in SAS platforms (PROC SQL)
- ✓ Fluent in English, Haitian and French
- ✓ SSRS, Power BI, COGNOS, SSIS/ ETL, SAS, DEVOPS
- ✓ Artificial Intelligence/Machine Learning (AI&ML).
- ✓ Quality Customer Service
- ✓ Excellent Communication Skills
- ✓ Experience of replication and High Availability
- ✓ Views and procedures
- ✓ Experience with Power BI (Desktop Author)

EDUCATION & CREDENTIALS

Master of Business Administration –University of Phoenix Jan 2015

Focused: Technology Management GPA: 3.47

I have obtained great knowledge and understanding of leadership, business and team management, which prepared me to lead any team.

Bachelor of Information Technology – American InterContinental University, Weston, Florida Mar 2012

Focused: Computer Forensics Investigation GPA: 3.04

Certifications

CCFE / Certified Computer Forensics Examiner

Trained and obtained a Certificate in Excel 2010

AI/ML Certification using Python (Currently working on)

IT/COMPUTER EXPERTISE

Operating Systems: Windows 7, 8, 10, 11 Windows server 2003, 2008, 2012, 2019 and Mac OS 8.6.9.2.

IT Software: MS SQL server 2008, R2, 2012, 2014, 2016, 2017, 2019, Oracle 10g platforms, visual studio (SSIS, SSRS, Winform, WPF, WebForm, Console), strong T-SQL programming knowledge, visual studio / ASP.NET (C#, VB), Python (NumPy, pandas, sklearn, Scikit-learn), TCP/IP, HTML, CSS, JSON, API, DEVOPS, MS Access, FTK, EnCase, Helix, Paraben, X-ways Forensics, Win-Hex, Pro-Discover, PC Inspector File Recovery, VMware, Email Examiner, Microsoft Office 2000, 2003, 2007, 2010 (Word, Excel, PowerPoint, Access and Outlook)

PROFESSIONAL EXPERIENCE

SKYGEN USA Menomonee Falls, WI

2022 – Present

Data Analyst/Developer.

- Analyze large datasets of different types (SQL server tables, Views, Excel, CSV and TXT)
- Create and automate file extract such as Excel, CVS, TXT of types pipe, comma, tab and rag separated
- Create, modify tables, (TSQL) Stored Procedures, Views and Functions
- Create, modify, test and deploy SSIS packages, SSRS reports
- Create and modify script Task c# code to download and rename file.
- Compliance with HIPPA

Centene Corporation/Wellcare - Tampa, FL

March 2022 - December 2022

Lead. Business Technical Analyst/Developer

This role includes but not limited to manage team access to information, create, test and deploy Processes using SSIS and console app to extract, transform and load data, create, test and deploy SSRS and Power BI reports, create, test, package and deploy .net desktop C# application to allow end users to manage team-based data. Provide daily objectives, ensure systems are in place to motivate everyone including new hires, and ensure that upper manager is aware of any issue we may have.

- Lead the team and ensure everyone is contributing effectively
- Analyze large datasets of different types (SQL server tables, Views, Excel, CSV and TXT)
- Create and automate file extract such as Excel, CVS, TXT of types pipe, comma, tab and rag separated
- Manage team data access and processes
- Created and modified tables, Store Procedures, Views and Functions
- Created, modified SSIS packages, SSRS and power BI reports
- Develop and test WPF, Win forms, and Console application in ASP.net c#.
- Create submission process for Active Diagnosis and chart review and submit to CMS automatically
- Working with SAS - PROC SQL
- Power BI Desktop
- Compliance with HIPPA

Centene Corporation/Wellcare - Tampa, FL

Sept 2019 - March 2022

Sr. Business Technical Analyst/Developer

- Manage team data access and processes
- Analyze large datasets of different types (SQL server tables, Views, Excel, CSV and TXT)
- Create and automate file extract such as Excel, CVS, TXT of types pipe, comma, tab and rag separated
- Create, modify and test tables, Store Procedures, Views and Functions
- Create, modify, test and deploy SSIS packages, SSRS and power BI reports
- Develop and test WPF, Win forms, and Console application in ASP.net c#.
- Create submission process for Active Diagnosis and chart review submission using SSIS
- Working with SAS - PROC SQL
- Power BI Desktop
- Compliance with HIPPA

Collabra Contractor at Wellcare (Comprehensive Health Management, Inc.) - Tampa, FL

April 2019 - September 2019

Sr. Business Technical Analyst/Developer

- Manage team data access and processes such as ETL and automatic jobs
- Analyze large datasets of different types (SQL server tables, Views, Excel, CSV and TXT)
- Create and automate file extract such as Excel, CVS, TXT of types pipe, comma, tab and rag separated
- Create, modify and test objects such as tables, Store Procedures, Views and Functions
- Create, modify, test and deploy SSIS packages, SSRS and power BI reports
- Develop and test WPF, Win forms, and Console application in ASP.net c#.
- Create submission process for Active Diagnosis and chart review submission using SSIS, c#
- Working with SAS - PROC SQL
- Power BI Desktop
- Compliance with HIPPA

Centene Corporation/ Sunshine Health Plan - Sunrise, FL

February 2016- April 2019

Data Analyst II / Developer

Collaborate with the team to manage projects from start to finish or manage my own assigned projects.

Communicate project requirements and progress across departments involved and stakeholders. Schedule and plan weekly or bi-weekly meetings to ensure the projects are being worked on and provide help and suggestion where necessary.

- Analyze large datasets of different types (SQL server tables, Views, Excel, CSV and TXT)
- Create and automate file extract such as Excel, CVS, TXT of types pipe, comma, tab and rag separated
- Create objects such as tables, Store Procedures, Views and Functions
- Create, modify, test and deploy SSIS packages and SSRS reports
- Develop, modify and test application in ASP.net c#, packaging desktop application for installation.
- Use T-SQL, and excel to analyze data, fix errors, add business rules necessary and reload data using batch load process
- Compliance with HIPPA

Robert Half Technology - Miami, FL Contractor at Woolton which is now (RetailApp) August 2015 - February 2016
Database Administrator-consultant

- Analyzing Data and create process to solve problems
- Trouble shooting queries and improving performance
- Setting up and Checking database jobs daily
- Reviewing reports to identify error and miss information
- Microsoft SQL Server 2014 platforms in Azure
- Microsoft SQL Server and Windows account management
- Database Software Installation and Configuration
- Perform maintenance/ set up full daily, Differential and Transactional backups, rebuild and reorganize indexes
- Setting environment structure and plan disaster recovery model
- Create new store procedures, trigger and functions using T-SQL
- Create documentation to show each process activities

Amerilife Group LLC - Clear Water, FL

February 2015- August 2015

Business Intelligence Developer (BI)

- Create databases, tables, stored procedures, functions, views and indexes
- Create and test SSRS reports
- Create and test SSIS Packages (ETL)
- Create business Templates to meet each carrier's needs

Pasco Sheriff - Land O' Lake, Florida

February 2013 – February 2015

Database Administrator (DBA)

- Microsoft SQL Server 2005, 2008, 2008 R2, 2012 and Oracle 10g platforms
- Perform High Availability
- Microsoft Windows and SQL Server clustering / mirroring
- Microsoft Windows and SQL Server Log shipping / Replication
- Microsoft SQL Server and Windows account management
- Database Software Installation and Configuration
- Perform maintenance/ set up full daily, Differential and Transactional backups, rebuild and reorganize indexes
- Recover databases
- Analyze performance and speed of database's tables
- Optimizing queries
- Perform security to prevent unauthorized access of specific data by creating roles and groups
- Create and test SSRS, Cognos and Crystal Reports
- Create and test SSIS Packages, ETL
- Create and test Application in asp.net such as windows form and web form using C#
- Most of all ensure to create details documentation that are easy to follow for other developers.
